

Build It: Or Questions

Build the question left to right: **Did** + who + verb + **or** + verb + what. After **did** the verb stays plain. Then read the chore chart and build the answer: the verb takes **-ed**, and an **or** question wants a choice, never yes. Tap  to hear both.

★ build a question · ★★ answer it from the chart · ★★★ ask about every roommate

Build the question one row at a time, top to bottom. Then read the chart and build the answer.

start who verb A join verb B what end

After did, the verb is plain. In the answer, the verb takes -ed. Or wants a choice, not yes.
