

Patina · Nice to Meet You

Days, Months, Dates

The days, the months and their numbers, and the one thing American forms do differently from almost everywhere else: the month comes first.

★ the seven days · ★★ the twelve months · ★★★ write the date

★ The seven days

The seven days of the week. Tap a day to hear it.

Sunday

Monday

Tuesday

Wednesday

Thursday

Friday

Saturday

★★ The twelve months

The twelve months, each with its number. On an American form you write the number, so learn them together.

01 January

02 February

03 March

04 April

05 May

06 June

07 July

08 August

09 September

10 October

11 November

12 December

★★★ Write the date the American way

In the United States the MONTH comes first, then the day, then the year. May 12, 1985 is written 05/12/1985, not 12/05/1985.

Write each date the American way. Type it with the month first.

1 May 12, 1985
