Typed · Type · Will Type

then · now · next

Last class, **was**, **is** and **will be**. Today, every verb does the same: **clicked**, **click**, **will click**. Read the time word first. It tells you the verb.

★ then, now, next · ★★ the -ed, how to build it, when? · ★★★ choose the form, your technology, fix it

★ Then, now, next

Three cards. The same sentences then, now and next. Only the verb and the time word change.

THEN

yesterday · last year · in 2015

-ed

I **CLICKED** the link yesterday. 🗣️

She **CALLED** her mother last year. 🗣️

They **PRINTED** the forms in 2015. 🗣️

NOW

every day · every week · these days

plain · -s with he, she, it

I **CLICK** the link every day. 🗣️

She **CALLS** her mother every week. 🗣️

They **PRINT** the forms these days. 🗣️

NEXT

tomorrow · next year · someday

will + the plain verb

I **WILL CLICK** the link tomorrow. 🗣️

She **WILL CALL** her mother next year. 🗣️

They **WILL PRINT** the forms someday. 🗣️

She **clicks**. He **searches**. 🗣️

Now, with he, she, it or a name: add -s. She clicks. He searches.

★★ The -ed

The -ed has three sounds. Tap each word and listen.

clicked

sounds like t

called

sounds like d

printed

sounds like id

typed It ends in e: add only d.

copied Consonant + y: y becomes i, then -ed.

scrolled Just add -ed. Nothing doubles.

★★ How to build it

Find the time. Find the subject. Then read across.

then: **-ed** · now: **plain** (-s with he, she) · next: **will** + plain

	THEN	NOW	NEXT
I	clicked	click	will click
You	clicked	click	will click
He/She/It	clicked	clicks	will click
We	clicked	click	will click
They	clicked	click	will click

Look at the time word first. Then look at the subject.

★★ When?

Is it then, now or next? Tap one.

1	tomorrow	Then	Now	Next
2	yesterday	Then	Now	Next
3	every day	Then	Now	Next
4	last week	Then	Now	Next
5	next month	Then	Now	Next
6	every week	Then	Now	Next
7	in 2015	Then	Now	Next
